

Scratch below the surface...

Pet questionnaire

Please take a few moments to read through the questions below and tick where appropriate.

Does your pet show any of the following signs:-

Excessive scratching?

Excessive grooming or licking?

Rubbing on the floor?

Excessive chewing, especially of the paws and groin?

Does your pet have any of these:-

Hair loss?

Greasy or flaky skin?

A foul odour?

Raw, inflamed areas of skin or in the ears?

Do you know if your pet's parents or siblings have a history of skin conditions?

If you have ticked any of these boxes, you need to **speak to your vet.**

We are expert at handling a wide range of preventive care treatments. We strive to provide the most up-to-date dermatological care for our patients in a caring and professional manner. Because many of the diseases we deal with are lifelong, it is our goal to help educate you as an owner, and spend as much time as needed to help you understand and manage your pets' condition.

How long has your pet shown these signs?

.....

Have you used any medication previously?

.....

How old is your pet?

.....

If you have a dog, what breed is it?

.....
